

Year: 2026

To: Luma Homeowners

From: Francis Langlois, General Manager

Re: Fire Sprinkler

To Whom It May Concern:

This letter is to confirm that Luma Homeowners Association is equipped with a comprehensive fire protection system throughout the building.

The building is equipped with automatic fire sprinkler systems, fire alarm notification devices including audible/visual strobes, and fire alarm annunciators located throughout the property. These systems are installed and maintained in accordance with applicable fire and life safety requirements.

The fire sprinkler system, strobes, and annunciators are part of Luma's overall fire protection infrastructure designed to provide early notification and suppression capabilities in the event of a fire emergency.

Please feel free to contact us if additional information or documentation is required.

Sincerely,
Francis Langlois

General Manager
Luma Homeowners Association
